Other skills

Musician

Since 2002, I have sung and played bass in a dozen musical groups for which I have also produced records and shows, to the great delight of the public and my neighbors.

Comic artist

I draw, write scripts and publish my own comics, which I exhibit at shows such as the Angoulême International Comics Festival and the Montreal Comics Festival.

Show Producer

I'm the projectionist for Le Petit Cinéma Qualité+, a traveling screening room featuring a selection of questionable video clips from dusty VHS and the underbelly of the modern internet. I also host Le Battle de Doublage du Millénaire, a dubbing battle based on shady film clips, in the form of a wrestling gala.
